

CBS & thoses responsible for the lude and crass supposed entertainment presented at the Super Bowl half-time should be fined to the maximum. My wife, children, and myself should not have to be exposed to such repulsive forms of so -called entertainment!! We cannot allow those people to perpetrate their low morals and repsonsibilty peddling ways to get away with demeaning actions without taking responsibility for their actions!!! Have some backbone and as a government agency representing the people issue forth a judgement against CBS, MTV, the directors and entertainers for their part in this!
